

S James Street & SE 37th Street Improvements

Weekly Construction Update – Grimes, IA

The intent of this weekly update is to give an overview of work completed and a projection of work in the following week. It is intended to be a general overview and be tentative in nature. Things may differ from the listed schedule if weather or other unknown factors come into play.

Weekly Overview: September 3 Monday – September 8 Saturday

- The contractor did not work Monday, September 3, 2018, in observance of Labor Day.
- The contractor finished Phase 3 paving.
- The contractor paved the Northbound lanes of S James Street south of the SE 37th St intersection.
- The intake throats on the south edge of SE 37th St were installed.
- The contractor was unable to work Wednesday September 5, and Friday September 7, due to rain and wet site conditions.
- The contractor worked Saturday on paving portions of S James Street and SE 37th St.

What to expect next week: September 10 Monday – September 15 Saturday

- Traffic is planned to be shifted to Phase 4 on Wednesday, September 12.
- The contractor will work on Phase 4 in preparation for paving, including grading and modified subbase installation.
- The contractor will pave the Phase 5 left turn lane from NB S James St to WB SE 37th St, as well as driveway and street crossovers on S James Street.

What you need to know:

- Working hours are Monday-Friday (7:00 am to 9:00 pm). Work on the weekends and at night will require City approval.
- The contractor will notify property owners if work will impact access to property.
- Please do not remove any construction stakes located within the limits of work.
- During construction if property owners lose utility service, please contact your local service provider as follows:
 - Electric - MidAmerican Energy 1-888-427-5632
 - Gas - Black Hills Energy 1-888-890-5554
 - Cable, Internet, Telephone
 - CenturyLink 1-866-642-0444
 - Mediacom 1-800-332-0245
 - Sewer / Water – US Water
1-515-968-3176 (regular business hours)
1-515-822-4671 (emergency after hours)
- Construction projects are fluid in nature, and depend on many variables. Examples are poor weather, utility conflicts, unknown underground items, and fabrication schedules. While we will do our best to meet planned schedules, we appreciate your patience with unforeseen circumstances and understanding the possibility of changes to the schedule.

If you have any questions, please contact John Gade with FOX Engineering at 515-233-0000 or by email at jmg@foxeng.com.
